Shared elegance...

2023 defines the arrival of a new era: a shared elegance.

The latest hotel and restaurant concepts orchestrated by design professionals are based on minimalism and sustainability. Devoid of unnecessary elements, the spaces are pure and organic.

The Évidence collection and the Champagne & Cocktail coupe fit perfectly into this new atmosphere of sobriety and simplicity. Monti is a collection with a vintage look but with a more refined and modest feel.

Metals and wood have become essential in design projects: the assembly of horizontal and vertical planes. In this spirit, Chef&Sommelier™ proposes the Symétrie collection: fluid and dynamic vertical stripes to bring movement and Brixton combining vertical and horizontal mouldings for more contrast and light effects.

Symétrie 58 cl

A hypnotizing optical game....

Symétrie is a new kind of collection from Chef&Sommelier™. This line, with its wide range of products, meets the needs of restaurateurs, mixologists and caterers in search of difference and delicacy. This collection is characterised by the vertical lines that run through the parisons of its glasses, creating a hypnotic optical play. In keeping with the trend, the subtle optical lines highlight the wines and cocktails, without distracting attention during the tasting.

Simple, sleek...

The trend of the coupe stemglass is very strong, and it is the favourite of many mixologists. Infact, it has become a star of many instagram accounts as well. Simple, sleek and thin, it enhances artistic creation.

A must for trendy bars...

The new shapes of the Monti line will be precious allies to stimulate the creativity of mixologists. The capacities are designed to serve cocktails made with selected top-of-the-range ingredients. With these two new original designs, the Monti line is sober and elegant, a must for trendy bars offering a unique experience.

Brixton

Today staple on the bar shelves...

This modern vintage design of Brixton had requests for a new modern shape. The Tubo is today an essential for bar shelves. It clearly enhances the cocktail colours and composition, is easy to store, and saves much needed space. The shape provides the opportunity for bartenders to be creative with the layering of premium product.

Authentic *MODERNITY...*

Well-being, modernity and durability prevail in a beautiful balance of authentic modernity...

Hotels and restaurants now favour community and coworking spaces to facilitate networking. These new hybrid places such as lobbies, bars or cafeterias are equipped with versatile and comfortable elements. Two adjectives that have guided the new collections Tube, Absoluty, Spring and Intensity White.

M *odernity and sophistication...*

Straight, simple and timeless lines; the brilliance and transparency of Krysta™ crystalline; a heavy base with a thin rim: the Tube collection definitely plays on elegance and sophistication. Its place is in top-of-the-range bars, where the container disappears to sublimate the content. But the most modern establishments that want to shake up the established order will also be able to use it on the table as a water tumbler next to a stemmed glass with a generous capacity.

*T*imeless roundness...

The crystalline tumblers of the Absoluty collection are distinguished by their thick bottoms, which contrast with the fineness and brilliance of the bowls. The round, elegant and timeless silhouette of this line adapts to a wide range of interior styles: from the most sophisticated to the most casual of settings. Whether restaurant tables to mixologists' bars, the four glasses in this collection (with two high and two low versions) will enhance the simplest of drinks, to the most elaborate.

colour your TABLE

Mix, match and don't hesitate to colour your tables.

Green is an ubiquitous colour that can be found in all its shades in nature but also in interior design. On walls, fabrics, accessories and furniture, green can easily be combined with other colours. Primary Color by Chef&Sommelier™ offers a palette of two fresh and natural energetic greens. The names of these tumblers are inspired by the names of stones, materials that are very popular and widely used in 2022!

A definitely DECO note

Jade

Definitely trendy, green is invading the halls of the trendiest bars and restaurants, either in small touches or in a total look. With these two new intense and complementary matt colours, Primary Color tumblers will bring a resolutely decorative note to the simplest of atmospheres, as well as to the most elaborate.
